PRESIDENT'S MESSAGE

SRI KONERU SATYANARAYANA
President & Chancellor, KLEF

Dear Readers,

Welcome to the first issue of The Cosmos, the KLH Bachupally monthly newsletter.

At KLH Bachupally, we go beyond academics and teach our students to be responsible citizens and professionals. We believe in promoting professional responsibility, fostering ethical leadership, integrating social and environmental considerations and promoting ethical responsibility in professional collaboration. We are committed to nurturing a generation of responsible and ethical engineers who prioritize the well-being of humanity and the environment.

We hold the firm belief that education must be an adventure. Our committed team of educators work tirelessly to put into action groundbreaking teaching approaches that transcend the boundaries of conventional classrooms. From cohort-based learning to flipped classrooms, our students are encouraged to think different.

I extend my heartfelt gratitude to our faculty and staff who work tirelessly to bring these concepts to life and to our students for their unwavering dedication to excellence. Together, we are forging a path toward a new era of education that is dynamic, engaging and community-driven.

This issue of The Cosmos presents details of events organized at KLH Bachupally Campus, guest lectures and workshops organized by various departments and student activities.

Happy Reading!

VICE PRESIDENT'S MESSAGE

ER. K.L. HAVISH
Vice-President, KLEF

Dear Readers,

The first issue of The Cosmos, the KLH Bachupally monthly newsletter, is here and we take great pride in presenting it to you.

To keep pace with the changing educational environment, KLH Bachupally is dedicated to offering our students hands-on experiences, empowering them to apply their theoretical knowledge in practical situations. This approach cultivates problem-solving skills, teamwork and creativity. From online and blended learning to instilling global and cultural awareness, our dedicated team of highly-skilled faculty, supported by experienced programmers and lab staff, are at the forefront of educational innovation. They work collaboratively to ensure that the students receive a well-rounded education that prepares them for success in an increasingly interconnected world.

What makes KLH stand out is our commitment to fostering a dynamic learning environment. The university constantly adapts its curriculum to stay relevant in a rapidly changing world, ensuring that students are equipped with the latest knowledge and skills. KLH Bachupally Campus is a hub of innovation and research. Its state-of-the-art facilities encourage students and faculty to explore new frontiers of knowledge.

In this edition of The Cosmos, we bring you news about campus events and student activities. We hope you enjoy it.

VICE CHANCELLOR'S MESSAGE

Dear Students,

I extend my heartfelt congratulations to all of you on the successful launch of KLH Bachupally's new newsletter, The Cosmos. This remarkable achievement marks a significant milestone in our journey as a vibrant and dynamic educational community.

This newsletter represents a significant step forward in our collective efforts to enhance communication, celebrate achievements and showcase the diverse talents and achievements of our students and faculty members.

I wish you all the best.

- Dr. G. Pardha Saradhi Varma
Vice-Chancellor, KLEF

PRO VICE CHANCELLOR'S MESSAGE

Dear Students,

My heartiest congratulations on the launch of KLH Bachupally's newsletter, The Cosmos. I encourage everyone to actively participate in and contribute to this valuable platform. Let us use this newsletter as a vehicle to amplify our voices, share our stories and inspire one another to reach greater heights of success and accomplishment.

All the best.

- Dr A.V.S. Prasad
Pro Vice-Chancellor, KLEF

PRO VICE CHANCELLOR'S MESSAGE

Dear Students,

Congratulations on this exceptional accomplishment! May this newsletter serve as a beacon of knowledge, inspiration and unity for years to come. This newsletter is a reflection of our dedication to cultivating a vibrant atmosphere of knowledge exchange, academic brilliance and active community involvement within our esteemed institution.

Wishing you all the best.

- Dr. N. Venkatram
Pro Vice-Chancellor, KLEF

MESSAGE FROM THE REGISTRAR

Dear Students,

I extend my heartfelt congratulations to each and every one of you on the successful launch of the brand new newsletter. I hope The Cosmos will emerge as a platform where students can celebrate their achievements, share valuable insights and stay connected with one another. The newsletter is just the beginning, and I am excited to see the positive impact it will have on our university community.

- Dr K. Subbarao
Registrar

PRINCIPAL'S MESSAGE

Dear Readers,

Welcome to the inaugural edition of The Cosmos, the monthly university newsletter, your go-to source for the most recent updates and highlights from the KLH Bachupally campus

In today's dynamic educational environment, Engineering programs are evolving towards a more inter-disciplinary approach, shattering traditional boundaries that once separated various engineering disciplines. This transformation involves the seamless integration of knowledge from diverse fields. Notably, Artificial Intelligence and machine learning have become integral components of engineering curricula.

Here, at KLH Deemed to be University, Bachupally Campus, we are fully committed to staying at the forefront of this ever-changing technological landscape and meeting the evolving demands of the industry. Our curriculum is meticulously crafted to provide our students with a holistic and future-ready education and prepare them to tackle complex real-world challenges.

This newsletter will serve as a channel for communication for all members of the KLH community. Whether it's highlighting academic achievements, showcasing student creativity or sharing important updates, The Cosmos will undoubtedly become an integral part of our university life.

I would like to take this opportunity to extend my heartfelt appreciation to our devoted faculty members for their steadfast dedication to academic excellence and for creating a dynamic learning environment. To our students, I encourage you to stride forward with both courage and confidence. As you embark on this journey, rest assured that we will be by your side every step of the way.

This issue of The Cosmos covers a diverse range of topics, from the events organized at the campus to faculty orientation lectures and updates on student activities and news. Keep an eye out for future editions of our newsletter to stay informed about upcoming events and interactive sessions.

- Dr. L. Koteswara Rao
Principal, KLH Bachupally Campus

EVENTS

Welcome Freshmen Engineering Students!

Date: 20 July | Venue: KLH Bachupally Auditorium

Er. Koneru Satyanarayana, the president of KLEF,
is welcomed by Mrs. B. Sree Lakshmi, an assistant professor from the department of Mathematics.

As Hyderabad woke up to torrential rains on the morning of July 20, 2023, the sparkling new Bachupally campus of KLH Deemed to be University wore a festive atmosphere as it opened its doors to its first batch of students. The BTech freshman class was welcomed with a grand orientation program that unfolded over two engaging sessions. The event saw the attendance of a diverse and enthusiastic group of individuals, including distinguished industry guests and parents. The new auditorium was filled with the young bright faces of students as they embarked on a new chapter of their academic journey.

The program began with a prayer song and the lighting of the lamp to mark the auspicious occasion and celebrate the new beginning.

The students had the privilege of listening to Er. Koneru Satyanarayana, the esteemed president of KLH Deemed to be University. Mr. Satyanarayana shared his inspiring vision for the university, his insights into the future of education in the country and the university's role in shaping tomorrow's leaders. He congratulated both the students and their parents for their decision in choosing KLH, a prestigious institution consistently ranked among the top educational institutions in the country.

Dr. G. Pardha Saradhi Varma, the Vice-Chancellor of KLH Deemed to be University, encouraged students to not only excel in academics but also to channel their energies

towards civic engagement and service to society. During his address, Dr. Varma highlighted the university's commitment to nurturing well-rounded individuals who are not just experts in their respective fields but also compassionate citizens of the world.

Dr. L. Koteswara Rao, the principal of KLH Bachupally campus, warmly welcomed both students and parents to the KLH community. He provided a concise overview of the wide array of academic and extracurricular activities available at the university. Dr. Rao also highlighted the campus's state-of-the-art classrooms and laboratories, showcasing the institution's commitment to providing a top-notch educational experience.

The distinguished guests of the day—G. Ravichandra, general manager-HR of Tech Mahindra; Srikanth Surampudi, general manager and regional head-HR of TCS Hyderabad; and Richard King, regional head, academic interface program, TCS Hyderabad—inspired the students with their captivating and inspirational speeches.

Mr. Ravichandra urged the students to stay updated about latest trends as they play a crucial role in their success. He further encouraged them to explore cutting-edge technologies and emerging opportunities.

Mr. Surampudi also offered advice to the students, encouraging them to wholeheartedly embrace current trends, dream big and strive to stay ahead in the fiercely competitive job market.

Meanwhile, Mr. King emphasized the importance of holistic growth, suggesting that students should broaden their horizons beyond academics. He underscored the significance of exploring a variety of skills to enhance their knowledge, as this well-rounded development would greatly contribute to their future success.

Dr. A. Srinath, Dean, Skill Development; Dr. Harikiran, Additional Dean of Academics; and Dr. Ramakrishna Akella, Director of Placement, also shared their valuable insights with the students.

The orientation program aimed to give the new students a peek into the university's culture, academic rigor and opportunities for personal and professional growth, and it achieved this goal successfully. As the new students gathered for high tea organized by the university, their enthusiasm and excitement were palpable, evident in the smiles on their faces.

Independence Day: A Day of Pride and Patriotism

Date: 15 August | Venue: University Grounds

The students, faculty members and staff came together to commemorate the historic 75th Independence Day on August 15, 2023.

The celebrations began with the hoisting of the Tricolour by principal Dr. L. Koteswara Rao, followed by the rendition of the national anthem. The Tricolour, soaring proudly under the blue sky, stood as a symbol of the nation's freedom and unity.

During his speech, Dr. Koteswara Rao emphasized the significance of independence and underscored the pivotal role of education in fostering genuine independence. He urged the students to actively engage in efforts to improve society and make meaningful contributions to the nation's development. He emphasized that technology should be harnessed for the betterment of humanity.

The celebrations continued with patriotic songs to remind everyone of the country's rich cultural heritage and the sacrifices made by freedom fighters. Several thought-provoking speeches and presentations were delivered by the faculty members to highlight the importance of Independence Day and the values it represents. These speeches inspired everyone present to reflect on their roles as responsible citizens and agents of change. The celebrations culminated with the distribution of sweets.

Enthusiasm & Spirit on Display at National Sports Day Celebrations

Date: 29 August | Venue: Sports Room

At KLH Bachupally, the curriculum is meticulously designed to foster a harmonious blend of academic and sporting activities, for the holistic development of the students. In adherence to this principle, the university proudly marked the 12th National Sports Day on August 29, 2023, with a fervent celebration. This date holds special significance as it honours the birth anniversary of the legendary hockey icon, Major Dhyan Chand Singh. The theme for this year's Sports Day was "Sports are an enabler to an inclusive and fit society."

The event witnessed an enthusiastic gathering of both faculty and students, who gathered in the Sports Room to pay homage to the hockey legend. Teachers took the stage to shed light on the pivotal role sports play in shaping well-rounded individuals. The event concluded with a friendly round of chess, carrom and table tennis matches.

New Volleyball and Throwball Courts Unveiled

Date: 31 August | Venue: University Grounds

The honourable principal of KLH University, Bachupally, Dr. L. Koteswara Rao inaugurated the new volleyball and throwball courts on the campus premises on August 31, 2023. These exciting additions to the sports facilities are a testament to the university's commitment to providing the students with amenities for their physical and recreational development. The new facilities were unveiled with the aim to promote sportsmanship, teamwork and a healthy lifestyle among the students.

With the addition of these courts, the students can now host exciting tournaments. These new courts will play a vital role in nurturing sporting talent and fostering a spirit of competition and camaraderie among the students.

Teacher's Day Commemorated with Heartfelt Celebrations

Date: 5 September | Venue: Auditorium

Every year on 5 September, Teachers' Day is celebrated across the country, coinciding with the birth anniversary of India's first Vice-President, Dr. Sarvepalli Radhakrishnan. This day serves as a reminder of the invaluable role that educators play in nurturing and shaping the minds of the next generation.

At KLH Deemed to be University, Bachupally campus, the occasion was marked with a heartfelt celebration that included various activities and events devoted to honouring the dedicated faculty members who play a pivotal role in shaping the future of the students.

The cultural program, held in the college auditorium, started with the recitation of the gurupadhuka stotram as students were encouraged to fondly recall their childhood teachers and express their gratitude for their guidance. This moment was particularly moving as students reminisced about the services of their teachers, rendered with love and devotion.

The programme kickstarted with the screening of a documentary on Dr. Sarveppalli Radhakrishnan, setting the tone for the day's festivities.

The distinguished chief guest of the day, Mr. Ch. Sathi Reddy, the managing director of MTE Industries Pvt Ltd, Hyderabad, took the podium to address the assembled audience. In his address, he emphasized that teaching is not just a profession but a noble calling. Mr. Sathi

Reddy highlighted the pivotal role teachers play in the advancement of society. He stressed that teachers mould the future of the youth by imparting knowledge, offering guidance, instilling values and nurturing critical thinking and personal growth.

Later, teachers and students present in the auditorium were invited to share their messages. The students conveyed their deep appreciation and respect for their teachers, recognizing them as a source of inspiration and guidance in their educational journey. The teachers, in turn, expressed their deep passion and love for the art of teaching, reaffirming their commitment to nurturing the potential of each student.

Engineers' Day Extravaganza: Celebrating Innovation & Excellence

Date: 15 September | Venue: Auditorium

On 15 September, 2023, KLH Bachupally campus celebrated 'Engineers' Day' to mark the birth anniversary of Bharat Ratna, Sir Mokshagundam Visvesvaraya. During this special occasion, both students and faculty members paid their heartfelt tributes to Visvesvaraya, an eminent figure renowned as one of India's preeminent civil engineers.

The festivities took place in the college auditorium and commenced with a prayer and the ceremonial lighting of the diya. Dr. L. Koteswara Rao, the principal of KLH Bachupally campus, extended a warm welcome to the guests, students and faculty members, offering his words of wisdom and inspiration.

The distinguished guest of honour for the day was Mr. Harsha Vardhan Avvari, the co-founder and CEO of RyzeUp. In his inspirational address, Mr. Avvari urged the students to be mindful of emerging technological advancements and encouraged them to approach these developments with fresh perspectives. He motivated them to transcend conventional boundaries and focus on honing their skills, rather than fixating solely on financial gains.

The second guest of the day, Mr. Sekhar, shared his invaluable industry experience and inspired students to strive for excellence and encouraged them to embrace the opportunities that lay ahead.

Sophie Blessing, a first-year BTech student (CSE), delivered a speech about the responsibilities of engineers. Engineers, she said, are the architects of progress, the visionaries who propel us into the future. They are the bridge between what is and what could be, transforming ideas into reality. She paid tribute not only to the engineers of the past or the present but also the future (the students).

Dr. L. Koteswara Rao felicitates Mr. Harsha Vardhan Avvari, the co-founder and CEO of RyzeUp.

Hackathon, Ideathon and More

On the occasion of Engineers' Day, a series of events were organised for the students, including a four-hour coding hackathon, an ideathon on emerging technologies and a technical quiz. The BTech first-year students actively participated in the competitions, making it a huge success. Parallel technical workshops on topics like Artificial Intelligence, robotics and sustainable engineering were conducted by experts to provide hands-on experience and practical knowledge. To recognize academic excellence and outstanding contributions, the university felicitated the deserving students. These awards were a source of motivation for the young engineering aspirants.

Ganesh Chaturthi Celebrated with Joy and Devotion

Date: 18 September

The very first Ganesh Chaturthi at KLH Bachupally campus was marked by grand festivities and fervour. The week-long celebrations commenced on September 18 with a solemn puja ceremony graced by the honourable Vice-President of KLH Deemed to be University, Er. K.L. Havish. A clay idol of Lord Ganesha was ceremoniously installed in the lobby of the main building. Both students and faculty members gathered to witness the sacred event and participate in the pooja.

Day 2: The second day of the festival saw the teaching faculty, joined by a few groups of students, participate in the festivities. After the pooja, ceremonial offerings were distributed to everyone in attendance.

Day 3: On the third day, students and the non-teaching staff of the university led the ceremony.

Day 4 & 5: During the next two days, the university continued to wear a festive look as the students took part in the morning pooja ceremony.

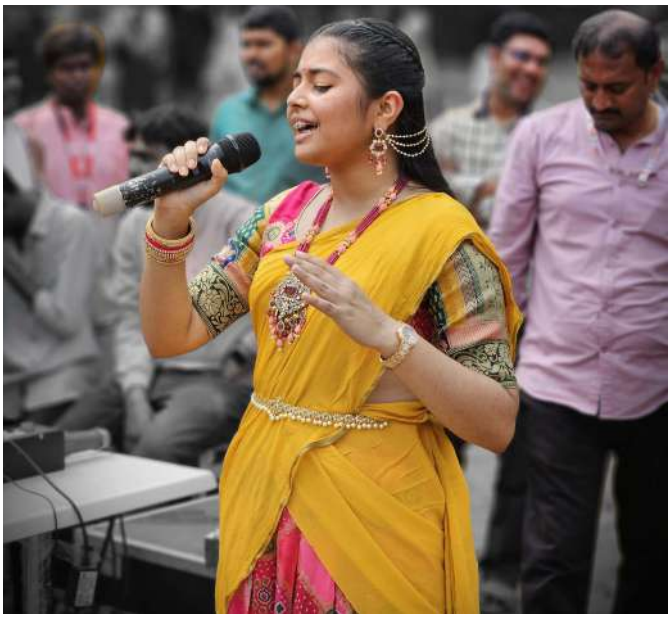

Day 6 & 7: The administrative and support staff, along with the managers, played a prominent role in leading the final two days of the celebrations, actively participating in the pooja and overseeing the distribution of offerings.

Day 8: The celebrations concluded on the eighth day, with both the faculty and students gearing up for 'Ganesh Nimajjanam.' The idol was joyously bid farewell amidst dancing and singing.

The first Ganesh Chaturthi was indeed a grand success. Until next time!

Er. K.L. Havish, the Vice-President of KLEF, attends the pooja on the first day of Ganesh Chaturthi celebrations.

Raising Awareness on Rainwater Harvesting: A Poster Presentation Competition

Date: 26 September | Venue: Room G08

To promote awareness about rainwater harvesting, the Student Affairs Committee of KLH Deemed to be University, Bachupally campus, organized a poster presentation competition on September 26, 2023. The competition centred around the theme "The Importance of Rainwater Harvesting Pits," with the primary objective of enlightening students about the importance of rainwater harvesting and its positive contributions to the environment and society.

The event witnessed enthusiastic participation from numerous students who showcased their creativity and passion for the cause. Participants were encouraged to use diverse art techniques and mediums such as painting, digital art and mixed media to effectively convey their message. The posters were judged on creativity, clarity of message, visual appeal and relevance to the theme.

All the posters were prominently displayed in the university auditorium, providing an opportunity for the entire university community to appreciate and engage with the artwork. This interactive display facilitated meaningful interactions among students, faculty and staff, fostering a deeper understanding of the subject matter. The thought-provoking nature of the posters drew numerous comments from visitors, igniting conversations about sustainability and the need for water conservation.

Winning Posters

Winners: K. Shivani, V. Divya Sri and Addithya A.S

Second: T. Ashwini

Third: K. Mithilesh Reddy

KLH Bachupally launched 'Sapling Plantation Drive' for a Greener Tomorrow

Date: 30 September | Venue: University Grounds

Dr. L. Koteswara Rao plants the first sapling.

In a resounding display of its dedication to fostering a greener and healthier planet, KLH Bachupally organized a one-day "Sapling Plantation Drive" on September 30, 2023.

The primary objective of this event was not only to create a lush and thriving campus but illuminate the crucial role of indigenous flora in our ecosystem. This laudable initiative that was part of a global effort to combat deforestation added nearly 600 new trees to the campus, contributing significantly to the university's green cover.

Principal Dr. L. Koteswara Rao planted the first sapling, officially marking the commencement of this momentous occasion. Addressing the students and faculty who had gathered for the event, Dr. Koteswara Rao emphasized the relevance of trees in our ecosystem and reaffirmed the university's unwavering commitment to planting the seeds for a greener and more sustainable future.

The plantation drive not only helped the students learn about the diverse array of tree species but also elucidated their ecological significance and the role they play in maintaining a balanced ecosystem. This hands-on experience helped bridge the gap between theoretical knowledge and practical environmental stewardship.

HIGH FLIERS

Shining Bright

Deepika Madugula, a first-year BTech (CSIT) student, clinched the top spot at the Yonex Sunrise South Zone Badminton Championship 2023 held in Andhra Pradesh. This talented young shuttler also secured third place at the Yonex Sunrise 46th Inter-state Inter-zonal and Junior National Badminton Championship 2023, which took place on September 7 and 8, 2023. Heartiest congratulations to the bright youngster.

FACULTY NEWS

Showcasing Academic Excellence

Dr. J. Pundareekam Goud, an assistant professor in the department of Physics, published an article in a Q2 journal. His paper, titled "Achieving Dense Microstructure with Desired Physical Properties Rapidly and Inexpensively in Bi-modified SrTiO3 Ceramics via Microwave Sintering Technique," appeared in the journal J Mater Sci: Mater Electron.

Dr. Seethireddy Reddisekhar Reddy from the department of Mathematics published an article in a Q2 journal. His paper, titled "Numerical and Machine Learning Approach for Fe_3O_4-Au/Blood Hybrid Nanofluid Flow in a Melting/Non-melting Heat Transfer Surface with Entropy Generation," was published in the journal SYMMETRY.

Faculty Orientation Lectures

On September 25, 2023, Dr. Preeti Jha, an associate professor in the department of CSE, delivered a lecture on "Scalable Clustering Algorithm for Handling Big Data Using Apache Spark Cluster." The lecture was part of the one-day orientation program on Data Science and was held in the conference room of KLH University, Bachupally campus. It was attended by all the faculty members. Dr. Jha's expertise and in-depth knowledge on the subject greatly enriched the understanding of all attendees, fostering an environment of learning and collaboration.

On August 19, 2023, the faculty members of KLH Bachupally campus had the privilege of attending a captivating lecture titled "Humanoid Robotics and AI," delivered by Mr. G.S. Raghavendra, an assistant professor in the department of computer science and engineering (CSE). This enlightening session provided valuable insights into the exciting and rapidly evolving field of humanoid robotics and Artificial Intelligence.

In an enlightening and timely session, Dr. G. Ramu, a professor in the department of CSE, delivered a thought-provoking lecture where he discussed the pivotal role of the widely acclaimed chatbot, ChatGPT. The talk, titled "ChatGPT in Engineering Education," provided a comprehensive exploration of how this innovative technology is reshaping the landscape of engineering education and learning methods. The lecture was held at the KLH Bachupally auditorium on August 5, 2023.

On July 29, the faculty members hand the privilege of attending an insightful session conducted by Dr. J. Pundareekam Goud, an assistant professor in the department of Physics. He delivered a lecture on "Low-Temperature Crystallized BST Thin Films by a Laser Annealing Process for Tunable Microwave Devices Applications."

The inaugural Faculty Orientation Lecture at the new KLH Bachupally campus was delivered by Dr. M. Seshadri on the topic "Engineering Silver Nanoclusters/Rare Earth Ions in Amorphous Materials for Optoelectronics." This event took place on July 13, 2023, and attracted active participation from faculty members from various departments.

FRESHMEN DIARIES

A Day in the Life of a KLH Student

- By Sophie Blessing (BTech CSE)

"Good morning, sir," I wish our principal, making my way toward the gate. He gives me a nod of approval. I have never heard of a university with a more present principal. At many universities, it often seems like the principal represents the bureaucracy of the university, they are only there to look good to donors and the board, and rarely interact with students. This could not be further from the truth where Dr. L. Koteswara Rao is concerned. He seems to be everywhere. I constantly get Snapchats from friends with pictures of him all around campus captioned, "spotted: principal."

My first class of the day is Mathematics. As a BiPC student, you'd think I'd be more ambivalent with math in general, but catching up with the subject has been fairly easy. After learning that our university offers extra math classes to BiPC students, a great comfort fell upon me. Two hours of class passed by in a jiffy.

Connecting with my professors has been one of the most important aspects of my time so far at KLH. In college, the teacher student relationship becomes a bit informal. They become more or less like our friends.

I then head down to our canteen, to not only eat some good food but to also hang out with my friends. We usually get some ice cream and chat before our next class.

My next class for the day is English lab. Our state-of-the-art lab is equipped with Apple monitors. Lab classes are always fun because of how interactive they are. The whole university experience is at its peak with classes like this. We do a Cambridge-certified listening and speaking test.

After a fun lunch break, I look at my timetable and see that I have sports. My friends and I have most of the same classes. I remember when I explained to a few family members at a recent gathering that our university gave us the opportunity to not only pick our own classes but even our faculty, they stared at me in what seemed like a combination of awe and envy. I just know that I suddenly felt cool for some reason. Really cool.

After a refreshing 10-minute break, I make my way toward my last class of the day, DTI (Design Thinking and Innovation). This class is where creativity meets problem-solving, cultivating the next generation of innovators.

I have made incredible friendships here at KLH. Another part of life here at KLH that is close to my heart is how strong and connected we are as a community. With only about 600+ students, it's easy to understand how everyone can get involved, but that doesn't speak to the depth of our community.

As I navigate the hallowed halls of this university, I am reminded that each day is an opportunity to learn, to connect, and to thrive. So, here's to the past, the present, and the future of campus life.

Unforgettable First Impressions

- By Thambi Aashish Bobba (BTech CSE)

Finally, I am here at my engineering college with much excitement and with huge dreams to accomplish and many memories to make. Starting my journey as a freshman engineering student at KL Deemed to be University's Bachupally campus was an absolutely thrilling experience filled. It was the beginning of an incredible journey into college life and the world of engineering.

The first day of college is etched in my memory as a day of new beginnings and challenges.

The first day on campus was a rollercoaster of emotions. The university campus itself was a sight to behold. The building boasts impressive architecture and state-of-the-art infrastructure. With modern classrooms, well-equipped labs and extensive library resources, it's a hub for academic excellence.

As I attended my first classes and met my professors, the thrill of embarking on this new academic journey became even more pronounced. The professors' passion and excitement for their subjects were infectious, and I knew I was in the right place to learn and grow.

Firstly, I don't know how to build connections. How could I make connections and believe they would be permanent and lifelong? My first interaction with my peers was at the university auditorium. I found that initiating conversations with a simple smile, a friendly greeting, or a genuine compliment opened the door to further interactions. I made some good friends, and I believe these will last a lifetime.

Amid the excitement, challenges arose. Balancing studies, exams, social life and personal growth demanded greater responsibility and time management. These trials have shaped my character and determination.

In many ways, the campus itself was a reflection of the broader world, with its complexities and opportunities. It was a place where dreams took shape, friendships blossomed and the foundations of a future were laid. As I embraced this vibrant sea of campus life, I couldn't wait to dive in and be a part of this dynamic KL community.
